PROFILE

I am a dedicated and innovative Computer Science Engineering student with a passion for technology and a drive to make a positive impact on the world through innovative solutions. Currently pursuing a Bachelor's degree in Computer Science at [Dr.B.C.Roy Engineering College Durgapur], I have demonstrated a strong academic foundation, coupled with practical skills gained through various projects and internships

TECHNICAL SKILLS:

I proficiency in programming languages such as Python, Java, and C++, I am well-versed in both front-end and back-end development. I have hands-on experience with web development frameworks like Django and Flask, as well as a strong understanding of database management systems, including SQL and NoSQL databases.

I have also delved into the field of cybersecurity, contributing to projects focused on enhancing digital defense mechanisms. Work in areas such as threat detection algorithms and security infrastructure improvements showcases a strong commitment to staying updated on the latest advancements in the cybersecurity domain. Familiarity with tools like Wireshark, Snort, and Metasploit underlines My dedication to mastering the tools essential for safeguarding digital systems against evolving threats.
